We have demonstrated now that the stomach is performing its natural functions and that he can take a large amount of nourishment. That is a great step. As long as he can cut he is all right. We are looking for an egg," he added, smiling, "and if we can find a real hen's egg, fresh laid for invalids, we will give it to him soft boiled.

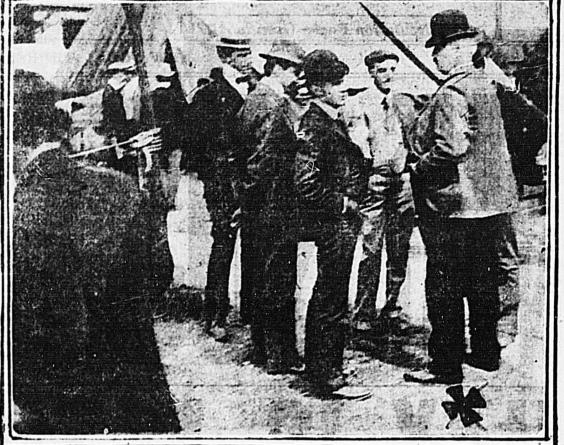

When he had fluished his meal this morning he told me he would like a mild eigar.
